

## نخستین جشنواره دستاوردهای رایانه ای ایران

دومین جشنواره بین المللی دستاوردهای رایانه ای با هدف ارتقاء دانش رایانه ای همزمان با WSIS (اجلاس جهانی سران جامعه اطلاعاتی) در سال ۲۰۰۵ برگزار می شود که از میان آثار برتر رایانه ای کشورهای جهان تعدادی به عنوان آثار برتر جهان معرفی می گردد. در این راستا مطابق قراردادی فیما بین آقای سپهر دهبور و ICNM - International Center for New Media ، نخستین جشنواره دستاوردهای رایانه ای ایران به عنوان Iran national contest for preselection of World Summit Award برگزار می گردد.

### • **نخستین جشنواره ملی دستاوردهای رایانه ای**

نخستین جشنواره ملی دستاوردهای رایانه ای با هدف انتخاب ۸ دستاورد برتر ایران در ۸ شاخه مختلف رایانه ای به منظور ارائه به رقابت‌های World Summit Award که همزمان با اجلاس جهانی سران جامعه اطلاعاتی (WSIS) در پاییز ۲۰۰۵ انجام می شود برگزار می گردد و سپس از بین ۱۶۸ کشور شرکت کننده در نهایت ۵ کار برتر در هر یک از ۸ شاخه WSA و به عبارت دیگر ۴۰ کار برتر دنیا توسط WSA Grand Jury از بین بیش از ۱۴۰۰ اثر ارسالی از کل دنیا انتخاب می شوند.

• هشت شاخه WSA جشنواره عبارتند از: دولت الکترونیک (e-Government)، آموزش الکترونیک (e-Learning)، تجارت الکترونیک (e-Business)، محصولات فرهنگی الکترونیک (e-Culture)، سرگرمی و بازی های رایانه ای (e-Entertainment)، سلامت الکترونیک (e-Health)، ارابه الکترونیکی علوم (e-Science) و زیرساخت‌های الکترونیکی (e-Inclusion).

• با توجه به موضوع جشنواره، سایتهای اینترنتی نیز می توانند در جشنواره شرکت داده شوند.

• با بررسی هایی که انجام شده است احتمال برنده شدن تعدادی از دستاوردهای رایانه ای ایران در رقابت‌های جهانی WSA و قرار گرفتن بین ۴۰ کار برتر دنیا قریب به یقین می باشد. ایران از این رقابتها دست خالی بر نخواهد گشت.

### • **زمانبندی جشنواره و رقابت‌های جهانی WSA به صورت زیر می باشد:**

زمانبندی دقیقتر در مورد رخداد های جشنواره داخلی به زودی اعلام می شود. برای دریافت آخرین اطلاعات به خبرنامه جشنواره پیوندید.

• در مورد ادامه موجودیت رقابت‌های جهانی World Summit Award در سالهای آینده هنوز تصمیم گیری انجام نشده است. بر اساس تصمیمات اتخاذ شده، این رقابتها تنها در سالهای ۲۰۰۲ و ۲۰۰۵ میلادی انجام داده می شود. به احتمال قوی این اولین و آخرین فرصت برای چنین رقابت بین المللی بی نظیری در صنعت IT با حضور بیش از ۱۶۸ کشور می باشد. (در سال ۲۰۰۳ ایران حضوری در این رقابتها نداشت.) با توجه به تبلیغاتی که روی کارهای برنده در سطح دنیا انجام می شود و پتانسیل کارهای ایرانی برای برنده شدن، اشتیاق فراوان و استقبال گسترده ای از طرف تولید کنندگان محصولات IT برای شرکت کردن در این جشنواره انتظار می رود.

The WORLD SUMMIT AWARD (WSA) 2003/2005 is unique through its specific categories, which cover all aspects and sectors of the emerging Information Society and put the added value of multimedia and electronic contents for specific user groups and purposes at the centre of competition and evaluation. It is also unique due to sustained outreach activities in all United Nations member states and its promotion by leading multimedia and internet organizations and institutions. The WORLD SUMMIT AWARD Project is governed by rules approved by the Board of Directors, the independent judgments of the European Academy of Digital Media and on the basis of 5 years of experience with the EUROPRIX contest. It is carried out by the WORLD SUMMIT AWARD office at ICNM, Austria.

The WORLD SUMMIT AWARD stands out as a contest with benefits for every entry. It is a showcasing and networking platform for e-content products and a unique chance for producers to receive recognition outside their existing markets and customer communities.

WSA 2005 - Experience the richness and diversity of e-Content and creativity!

The World Summit Award (WSA) is a global initiative to select and promote the World's best e-Contents. It is held in cooperation with the United Nations' World Summit on the Information Society (WSIS) 2003-2005 and receives support from numerous national and international non-profit organizations, as well as a substantial contribution from the private industry:

رابطه‌های جهانی WSA از سوی سازمانهای بزرگی حمایت می‌شوند :

همچنین چهره‌های مطرحی چون رومانو پرودی (رئیس پیشین اتحادیه اروپا) و ولفگانگ شوسل (رئیس دولت اتریش) و ۷ رئیس جمهور دیگر از جمله حامیان WSA می‌باشند.

In 2003, 136 countries have participated in the WSA and 40 finalists were selected out of 803 submissions through a world wide expert network. The response to this years (2005) call was truly outstanding: highest quality nominations were received from governmental, industry and NGO institutions and associations in the field of e-content, multimedia, Internet and ICT from 168 countries world wide.

The WSA has thereby generated two important assets:

- ☞ The right to use/showcase world's most outstanding examples of quality e-Content
- ☞ A global and highly active supporters network

To leverage these exceptional assets, the WSA plans to conduct a worldwide Best Contents Road Show, organized in all main world regions on invitation and in cooperation with the local key partners. The goal of the WSA Road Show is to showcase the world's best e-Content examples and, through this, to raise the awareness of the importance of the quality e-Content in the development of the Information Society.

کارهای برتر در اکثر جشنواره های مهم دنیا شامل SIGGRAPH آمریکا و CeBit و DMMK.de و ... نمایش داده می شوند. همچنین از سازندگان آثار برتر برای نمایش کارهای خود در اجلاس جامعه جهانی اطلاعات در سال ۲۰۰۵ دعوت می شود که کارهای خود را به نمایش بگذارند. کارهای برتر سری پیشین WSA در بیش از ۲۰ رخدادهای مهم صنعت IT جهان شرکت داده شدند:

### WSA 2003: Best e-Contents and Applications Presented Worldwide

Throughout 2003 and 2004, WSA has conducted over 20 events in each of the major world regions presenting Best e-Contents and Applications, selected in the WSA 2003.

The WSA Road Show will be running until Tunis 2005 before it goes to its next phase 2005 – 2007. All events are held in close co-operation with the WSA key partners – following an invitation from local organizers / organizations.

با توجه به حضور گسترده تر کشورها و استقبال چشمگیر از WSA 2005 انتظار می رود که آثار برتر دنیا در WSA 2005 در جشنواره ها و رخدادهای بسیار بیشتری نسبت به دوره قبل شرکت داده شوند. با توجه به تبلیغاتی که روی کارهای برنده در سطح دنیا انجام می شود و پتانسیل کارهای ایرانی برای برنده شدن، اشتیاق فراوان و استقبال گسترده ای از طرف تولید کنندگان محصولات IT برای شرکت کردن در این جشنواره انتظار می رود.

The events demonstrate the richness and diversity of e-contents and applications worldwide, and raise awareness for the importance of outstanding related products in the development of the Information Society.

The WSA Road Show concept includes exhibitions, presentation events, workshops and lectures plus an additional presentation of best practice projects in of the region where the event takes place.

- **Mission**

The contest represents a showcasing and networking platform for e-content products and a unique chance for producers to receive recognition outside their existing markets and customer communities. It is a unique opportunity for young talents to showcase their products and share ideas and techniques with professionals and international experts. Young talents will have a chance to approach international contests starting from the pre-selection process.

**The final goal of the 1st e-Solutions Festival is to transfer to the World Summit Award the eight official Iranian candidates.**

**Kofi Annan**  
**UN Secretary General**

"The World Summit on the Information Society offers a unique opportunity to shape the future of the information society so that all people can enjoy these benefits... It can help us to better understand just how the information revolution is transforming our societies. Most of all, it provides a platform for developing a shared vision of ways to create a truly inclusive information society that serves and empowers all people."

For the Net World Order conference - Bridging the Global Digital Divide - June 19, 2003

**Yoshio Utsumi**  
**Secretary-General, International Telecommunication Union**

"The overall goal of the WSA in bridging the digital divide and narrowing the content gap is a significant initiative that works in parallel with some important objectives of the World Summit on the Information Society and the International Telecommunication Union."

**Charles Geiger**  
**Executive Secretary of the Organizing Committee of the WSIS**

Bridging the digital divide and building the edifice of a global, development-oriented Information Society is dependent on the quality of information and knowledge that can be made available to all. The World Summit Award, held within the framework of the World Summit on the Information Society, demonstrates the cutting edge in harnessing the vast potential of the digital revolution in the service of humanity. It is my fervent hope that this collaboration with WSA in bringing to the forefront the finest examples of e-content and showcasing best practices from around the world will go a long way in providing comprehensive shape to the vision enunciated in Geneva and pave the road ahead to Tunis and beyond.

**Adama Samassékou**

**President of the WSIS Preparatory Committee 2003**

"My personal vision is that we can together build, through the World Summit on the Information Society, a new global solidarity founded on a better mutual understanding between peoples and nations, of a shared knowledge society for the future. The World Summit Award will help us make this vision a reality by raising awareness of the enormous creative potential of information and communication technologies and by promoting, by its work, a global evolution from an information society to a shared knowledge society."

**Guy-Olivier Segond**

**Special Ambassador for the WSIS 2003**

"The World Summit on the Information Society is not about: 'How does it work?' It is about: 'What's the purpose of it?' That is why the World Summit Award for e-Content and Creativity is essential to the success of the WSIS."

**Ted Baracos**

**Commercial Director MILIA**

"The World Summit Award is a great vehicle to promote creativity in digital content and encourage interactive media-makers to push new boundaries"

**UNESCO Grants Patronage for World Summit Award 2005**  
24-09-2004 (UNESCO)

The World Summit Award, a global initiative for selecting and promoting the best in e-content and creativity has now been granted UNESCO's sponsorship. The Award, that is coordinated by the International Center for New Media in Salzburg, Austria, is organized within the framework of the World Summit on the Information Society (WSIS).

By granting its sponsorship to the Award, UNESCO recognizes it as an outstanding initiative that contributes to bridging the digital divide by encouraging the creation of locally relevant, high quality multi media content.

The contest for the 2005 Award for best e-content examples in eight categories (Learning, Culture, Science, Government, Health, Business, Entertainment and Inclusion) will be launched in late 2004. The winners will be selected by an international jury and announced within the framework of WSIS in Tunis, in November 2005. The first award was given during WSIS in December 2003, in Geneva.
